

Jonathan Lindbloom

I am a visiting assistant professor of mathematics at [The Ohio State University](#), where I am mentored by [Dongbin Xiu](#). I received my Ph.D. in mathematics from Dartmouth College in 2026, where I was advised by [Anne Gelb](#). My dissertation is titled [*Advances in Computational Methods for Sparsity-Promoting Linear Inverse Problems*](#). My research interests include (Bayesian) inverse problems, numerical linear algebra, SciML/scientific computing, and uncertainty quantification.
